Academy

Once again the week has gone by very quickly. I would like to wish all our families who celebrated Eid, Eid Mubarak. I hope you had a lovely day. The weekend has been a bit of a wash out—here's hoping we see some better weather this week!

Head of Primary

## Road Safety

We have had a number of parents raise concerns about children being safe outside of school once they have been collected.

One concern is in regard to cars completing u-turns on Huddersfield Road. We are asking parents and carers to avoid doing these as there is a high risk of a collision.

We are also asking parents and carers to use the two pedestrian crossings near school to cross Huddersfield Road.

Not only does this ensure the children are crossing safely but teaches them good road safety awareness.

## Curriculum

Nursery have been learning all about different lifecycles and how to care for animals. They have also created their own wormery.

## Attendance

It is absolutely vital that where possible children do attend school and they are encouraged to do so daily.

The children have missed so much school time over the past year and it is imperative that they do not miss more, not just in terms of their academic attainment but also for their social skills and mental health.

## Stars of the Week week ending 14th May 2021
